

FOR THE NEXT
GENERATION

we do woodTM

- MADE IN DENMARK -

THIS IS WE DO WOOD

We Do Wood was established in Copenhagen in 2011 with the core belief that Danish design and strict sustainability principles should be closely intertwined. While not aiming to revolutionize the industry, We Do Wood seeks to contribute to a new era of reliability.

Our primary goal is to produce high-quality furniture that embodies both functional and expressive honesty. We are committed to consistently pursuing superior alternatives and strongly believe in our collective responsibility towards future generations. At We Do Wood, we are dedicated to making a positive impact on our planet.

// Klaus Jorlet.

FOR THE NEXT GENERATION

The strong vision of working honest and reliable permeates the work of We Do Wood which has played a role in setting new standards in the world of Danish design. We Do Wood is often described as a significant contribution towards making responsible furniture.

We prioritize local production and the use of raw materials as a fundamental aspect of our core values. To achieve this, we have established a partnership with Jyndbjerg (Danish Woodlands), a Danish manufacturer, to optimize wood utilization and minimize resource wastage.

This collaboration serves as our assurance of sustainable forestry practices and responsible logging methods. By incorporating a QR code system, we provide transparency to our customers, enabling them to trace the tree's origin and monitor the entire journey from raw wood to finished product.

"A piece of furniture is a success when it invites you to use it and does not require too much explanation"

Designer

SQUARE RANGE

Designed by
Sebastian Jørgensen

Introducing the Square range family. A sleek, wall-mounted shelving solution designed to beautifully showcase your cherished items. Ideal for minimalist and modern style homes, these slim and elegant shelves offer an aesthetically pleasing storage option. The Square range features easy installation, and its compact design, with a shelf depth of just 85 mm, ensures minimal space consumption.

THREESQUARE & FOURSQUARE - EXCLUSIVE EDITION
DESIGN YOUR OWN COLOR

SOLO

Designed by
Roon & Rahn

Introducing Solo, the ultimate space-efficient wardrobe that caters to various storage requirements. This elegant all-in-one wardrobe boasts a hat shelf, coat rack, and shoe shelves. Designed to minimize space consumption, Solo is an ideal choice for narrow hallways and other areas in need of space-saving furniture. Notably, this wardrobe doesn't require wall fixation, offering convenience and flexibility in placement. Solo is Crafted from solid European FSC® certified oak wood and produced in Denmark.

Laid Back

Designed by
Friends of Wood

Introducing Laid Back, a revolutionary product designed for "The next generation." This Coat Stand goes beyond being a mere beautiful and functional piece of furniture. It features a unique and innovative element on its backside. Here, you not only have the opportunity to measure the height of your children but also to document their growth by noting their height and the corresponding year on the back of the stand.

Laid Back combines practicality with sentimental value, providing a memorable way to track your kids' growth while adding an aesthetic touch to your space.

RECES

Designed by
Roon & Rahn

Reces is a meticulously designed coat rack that effortlessly blends aesthetic appeal with ample storage capacity. This visually striking piece serves as a captivating element in any room, while providing generous space for your coats and belongings. The vertical oak hangers, featuring small milled recesses, offer a unique advantage. Each hanger can hold multiple pieces of clothing and other objects without becoming overcrowded or untidy. With Reces, you can maintain a neat and organized space without sacrificing style.

CORRELATION BENCH 40 & 70

Designed by
Sebastian Jørgensen

Discover the Correlation Bench, a versatile and timeless Scandinavian classic that effortlessly combines functionality and style. This multipurpose piece serves as both a comfortable seating option and a convenient storage solution for your essentials. Whether placed in the hallway, offering a perfect spot to sit while getting dressed, or utilized as a stylish bedside table in the bedroom, the Correlation Bench adapts seamlessly to various settings.

Committed to promoting responsible practices, this bench is crafted from FSC® certified oak, ensuring the availability of responsible furniture options. Rediscover the charm of Scandinavian design with the Correlation Bench, an invitation to relax and embrace practicality in your space.

EXCLUSIVE EDITION - NEW SIZES AND COLORS

LOOP DESK

Designed by
Superform

With a wish to change the traditional perception of the home office, we have created the Loop Desk. The Loop Desk offers a unique folding mechanism, allowing it to be conveniently folded both upwards and downwards to adapt to your specific needs and available space. Crafted from oak and brass, the Loop Desk exudes a distinct Nordic charm, enhanced by its exquisite details. Its combination of materials and stunning aesthetics make it a stylish and eye-catching addition to any room. Experience the perfect fusion of functionality and Nordic elegance with the Loop Desk, redefining the way you perceive your workspace at home.

The Loop Desk has won the IF Design Award 2022 for its unique design. The Loop Desk is designed by Michael Sebber Colfelt from Superform Design.

NOMAD

Designed by
Sebastian Jørgensen

Introducing the Nomad Chair, a timeless Scandinavian furniture classic that draws inspiration from the legendary Rookhee Chair crafted for British military officers in India. True to its origins, the Nomad Chair is a field chair designed for effortless assembly and disassembly within seconds, making it highly portable and ideal for the contemporary nomadic lifestyle.

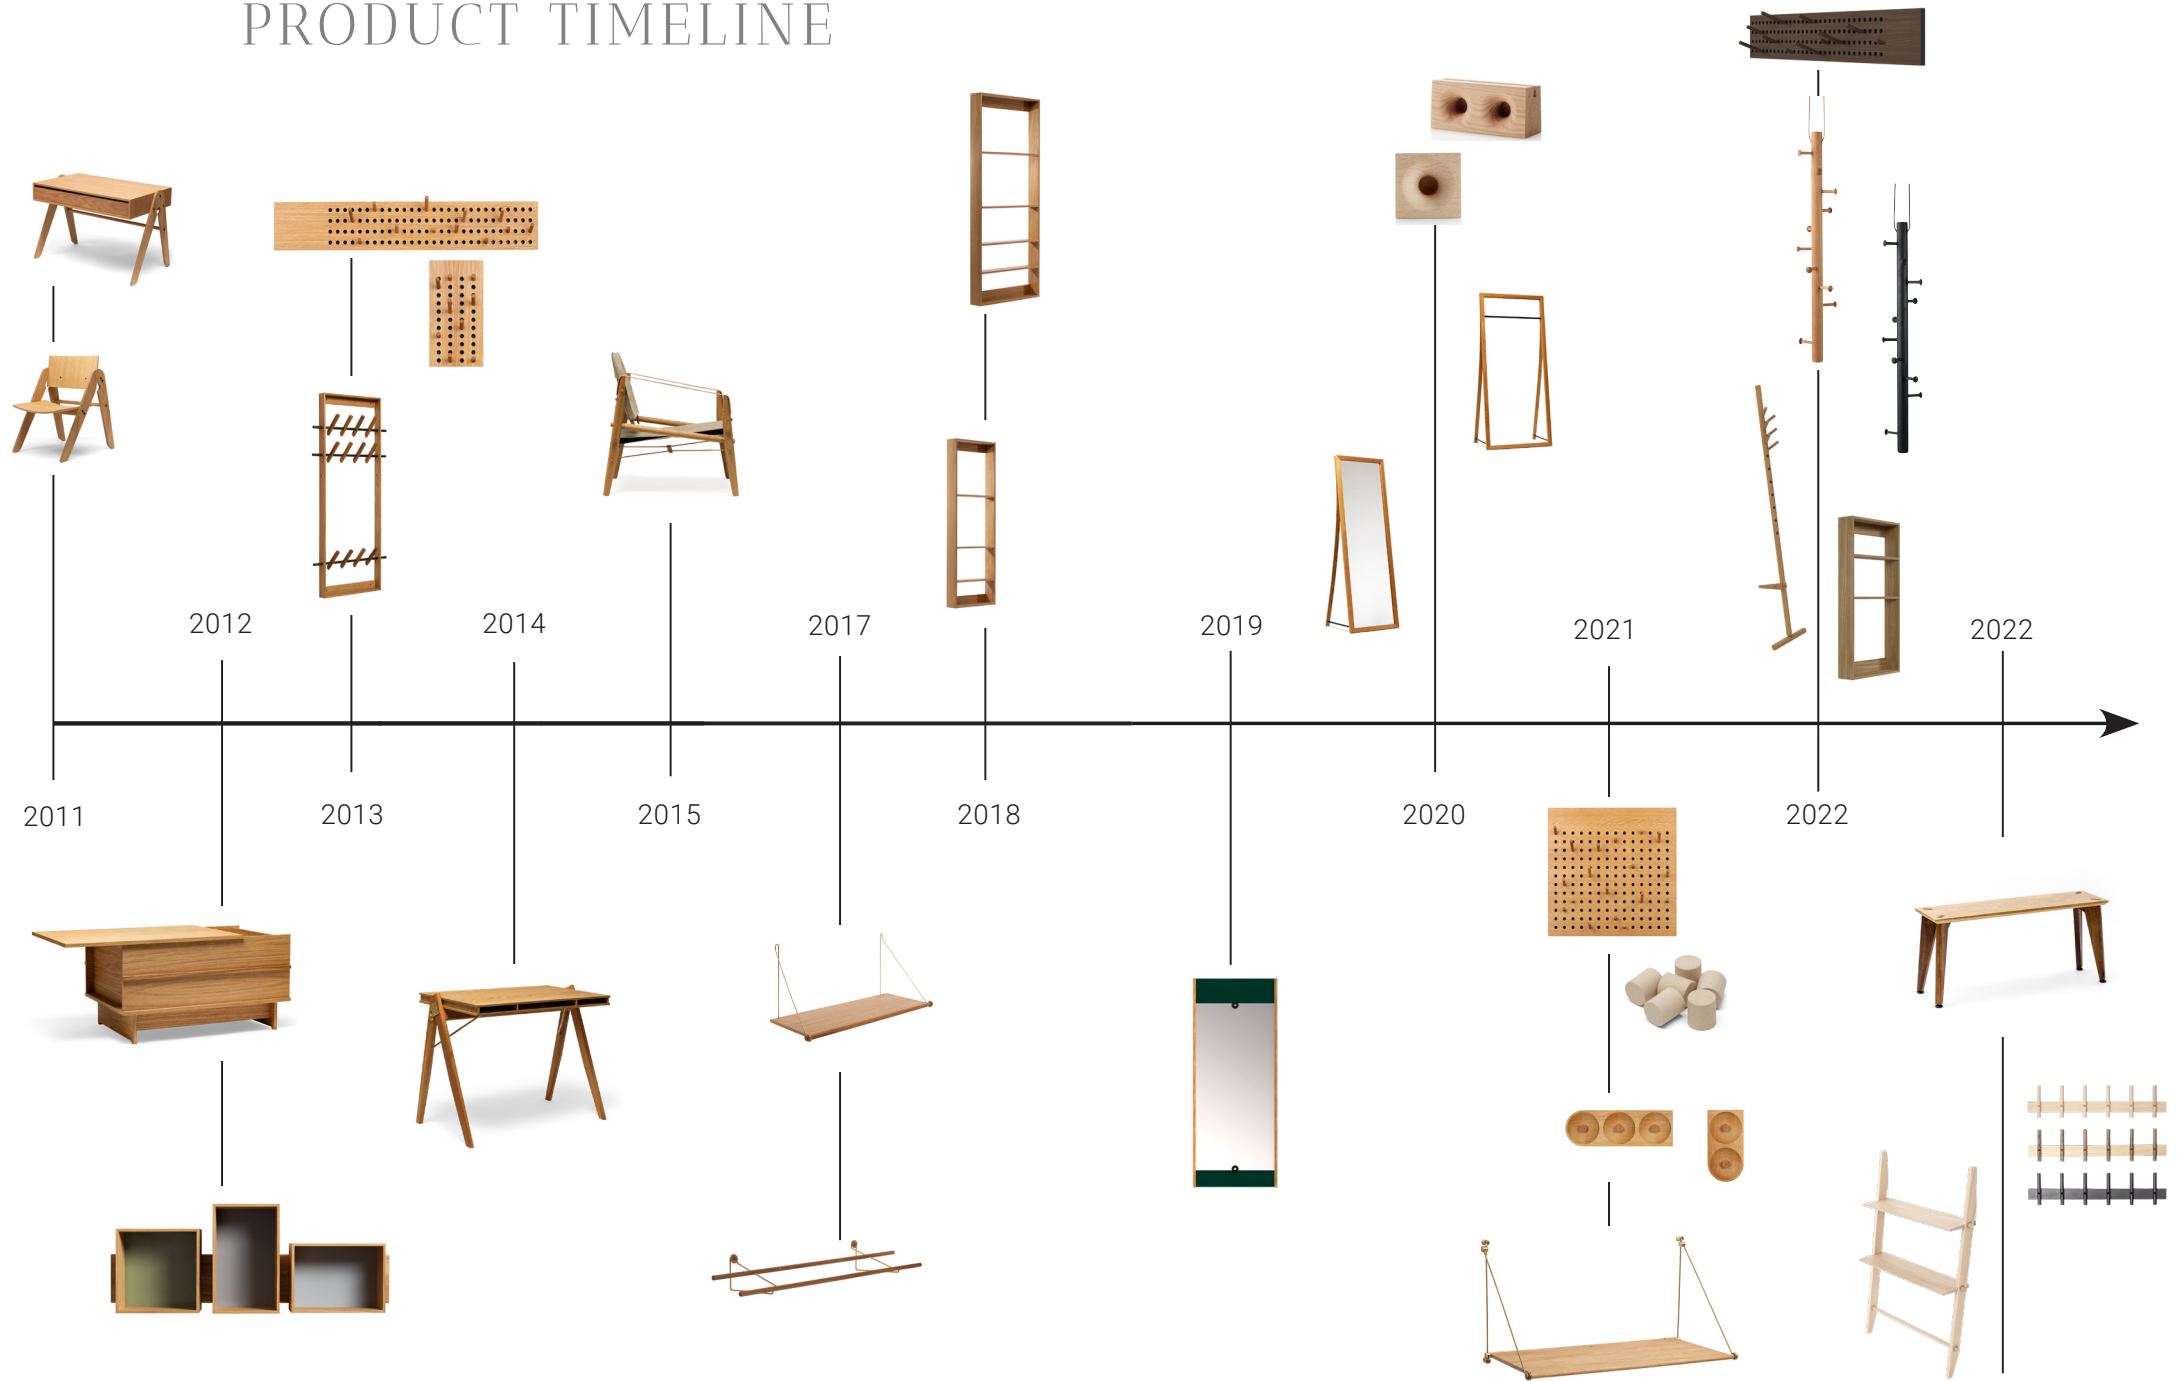

This chair embodies the spirit of adventure and mobility, allowing you to easily transport it wherever your journeys take you. Its practical design ensures convenience without compromising on comfort, making it a versatile seating option for outdoor excursions or even as a space-saving solution at home. Experience the fusion of heritage and modernity with the Nomad Chair, a tribute to its historical predecessor while catering to the demands of today's dynamic lifestyles.
