About Hannun

Based in Barcelona, at Hannun we offer a new way to connect with people's values through the conscious design of furniture crafted by local artisans using sustainable materials. We believe that good design is an exercise in coherence, which is why we collaborate with international designers who share our vision. With attention to every step of the process, we also work with workshops across Europe that create each piece with purpose, supporting their skilled artisans. For us, it's about redefining our relationship with the world, starting at home with conscious furniture choices.

Ownest Design

01. We believe that human well-being and the planet go hand in hand. Every decision we make reflects our commitment to these values, through transparency and respect for the world around us.

Our purpose is to redefine the meaning of "ownership," where each choice, each piece, reflects not only belonging but also responsibility for the world we live in.

02. Our essence. We design with the purpose of reconnecting with what is truly human and responding to the planet's needs, guided by honesty and integrity.

Kamis Mirror H4KAM78165

165 cm high x 65 cm wide x 3 cm deep.

Weight: 13,5 kg.

Frame thickness: 15 cm.

The Kamis mirror reproduces the design of our iconic Amarie mirror, but is made entirely from wood reclaimed from previous pieces, leaving visible those little imperfections we love so much. Wood recycling is one of Hannun's defining values, as we prioritise the reuse of raw materials to generate as little waste as possible.

Saljen Mirror
H4SAL78160

73 cm wide x 160 cm high x 2 cm deep / 17 kg.

The Saljen mirror is handcrafted from two pieces of finger-jointed spruce wood. The irregular cut of the wood and the worn surface texture complete the design of this decorative wall mirror, which also stands out for its size.

Material: fir wood.

Tamura Mirror
H4TAM78078

57,5 cm wide x 77 cm long x 12,5 cm thick
Width of the frame: 9 cm

Recovered and recycled wood mirror. In case of no stock,
new wood will be used.

Sold individually or in packs of 2 or 3.

Not suitable for liquids.

OLIVE

Emilio Wall Light T7EMI

16.5 cm width x 14 cm height x 11 cm depth / 1 kg.

Hand-turned wall light with organic shapes.

Material: Chamotte white clay fired at high temperature.

Finishes available: Beige and black.

Socket and bulb not included.

Recommended bulb type: LED (E27 socket).

Suitable for use in covered exteriors.

As it is a handmade artisan product, it may present small variations with respect to the images.

Remei Lamp
T7REM83022

Measurements y Weight:
20 cm height x 22 cm diameter / 0,3 kg.

Material: iron.

Finishes: Copper.

Only includes the lampshade.

Not included bulb, cable or socket.

Our Remei ceiling lamp is hand forged with iron using a totally environmentally friendly process. Conical in shape, it has a shiny finish and can be integrated with elements of any decorative style, although it is especially suitable for spaces with an industrial feel. It is available in two sizes and three finishes: black, brass and copper. It is recommended to clean it with a dry cloth. As it is a hand-made lamp, it can present variations typical of its handmade manufacturing.
